

VGS SOLUTION FOR COMBATING COVID-19

Provide a completely disinfected environment, thanks to an airborne disinfection system allowing all accessible and non-accessible surfaces to be treated using an effective, non-harmful, non-corrosive and fully biodegradable disinfectant.

VGS DIFFUSER (The Fogger unit)

- Can be plugged directly into the electrical output
- Can be powered by a battery pack
- It moves easily thanks to its wheels and carry handle.

DIFFUSION AND DISINFECTION:

Our Disinfectant Solutions are HEALTH CANADA APPROVED with all supporting documents .

A Bio-Disinfectant/ Natural Solution diffused into the air through the VGS DIFFUSER UNIT which transforms the disinfectant into very fine micro-droplets (<10 microns) thus disinfecting all surfaces, both accessible and inaccessible.

VGS solutions creates a hostile environment where microbes and viruses cannot survive, it mimics precisely the human immune system.

- 100% harmless: natural & eco-friendly, pH neutral, non-irritating
- Odorless and colorless
- Non-staining
- Highly effective (99.99%) against bacteria, viruses, spores, biofilm, and fungi
- Kill rate 99.9999%

Sanitization Power:

- 2000 sqft in 20 minutes distribution
 - 6000 sqft in 60 minutes distribution
 - Burn rate: 1 L solution/ 60 minutes
- 3D Hygiene / Aerosol delivery/ Disinfecting cubic ft

The most efficient and cost-effective method to increase periodic disinfection as a preventive measure to achieve heightened sanitation standards and reduce risk of exposure keeping your workplace environment clean and healthy for your employees and your business.

VGS DIFFUSER UNIT - DRY FOGGER

Models Available

- 2.5 hrs. between fill = 9,000 sqft compact size
- 4.5 hrs. between fill = 16,000 sqft, cordless operation option
- 10 hrs. between fill = 40,000 sqft larger spaces

Performance Features

- Airborne room disinfection (<10 microns)
- All surface in a room without gaps and ensures perfect 3D hygiene
- Robust Construction, maintenance free
- Compact and Lightweight - Wheels & Handle for easy Transportation
- Quiet Operation
- Automatic Shutoff
- Cost-effective operation & easy deployment
- No manual labor to fog the room
- Dry, Ultra Fine Mist - no residue or moisture left behind

Available for sale or lease to own options – Contact us for further details!
